

Vira Oleksandrivna Skora

*Farmer, was one of the first to buy a
mini farm for 10 head of cattle,
Head of ASC “Molochna Rika”,
Novomoskovsk Region of
Dnipropetrovsk Oblast*

*Our mini farm, where my husband and I
do everything together*

We accept only high-quality milk from producers by checking it at the laboratory.

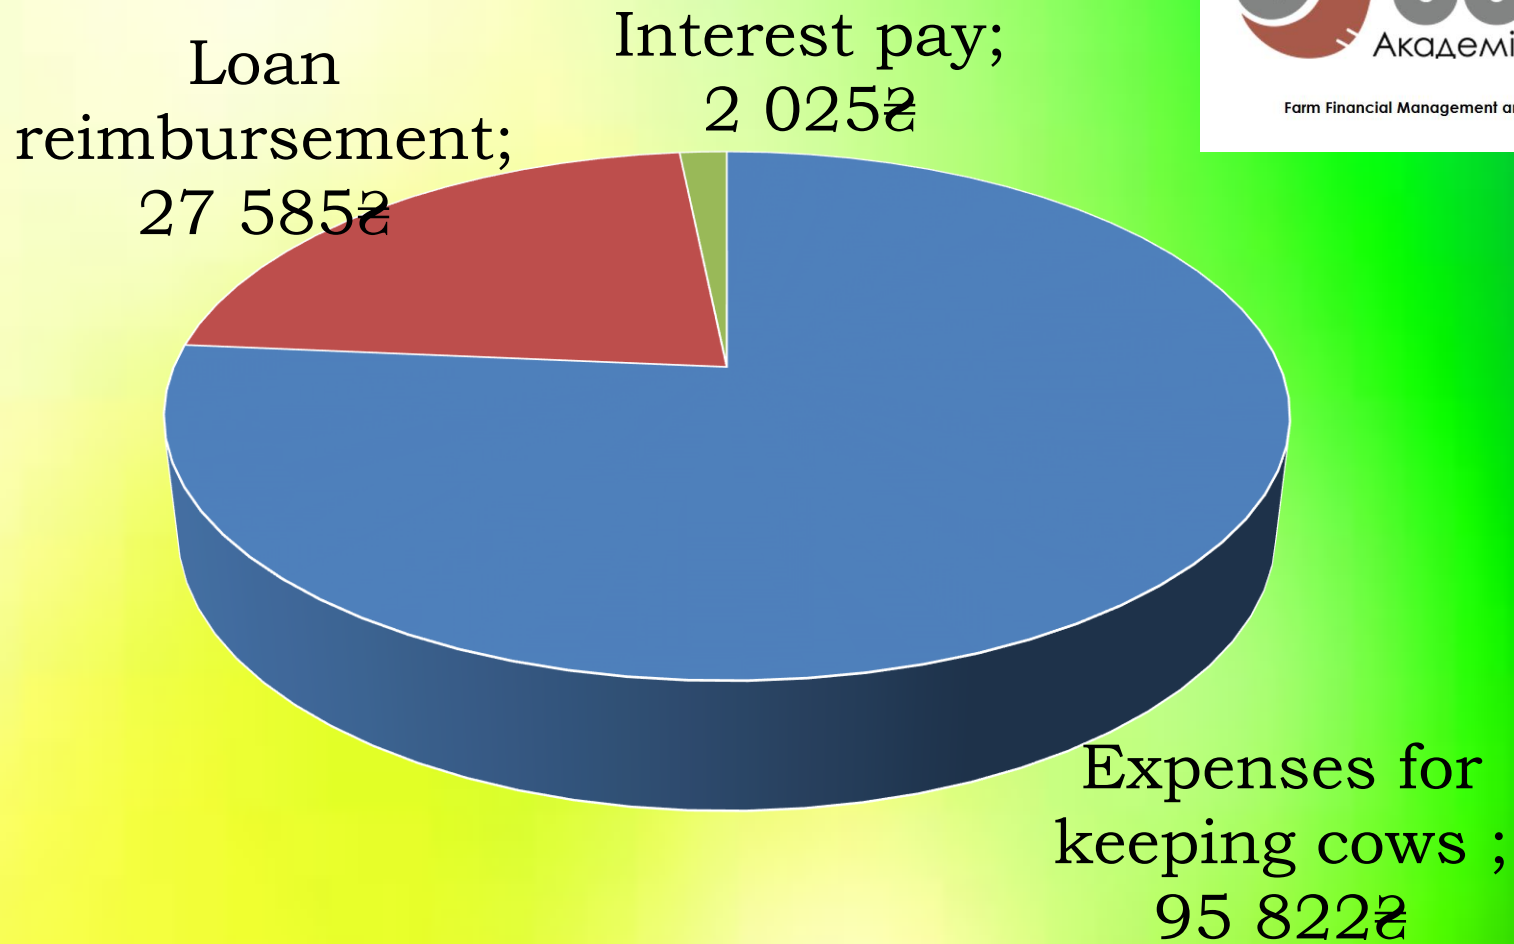

Being Head of a cooperative is a hard and responsible role.

My husband also makes feed for the animals, because farm's own feed base is very important for the development of a dairy business.

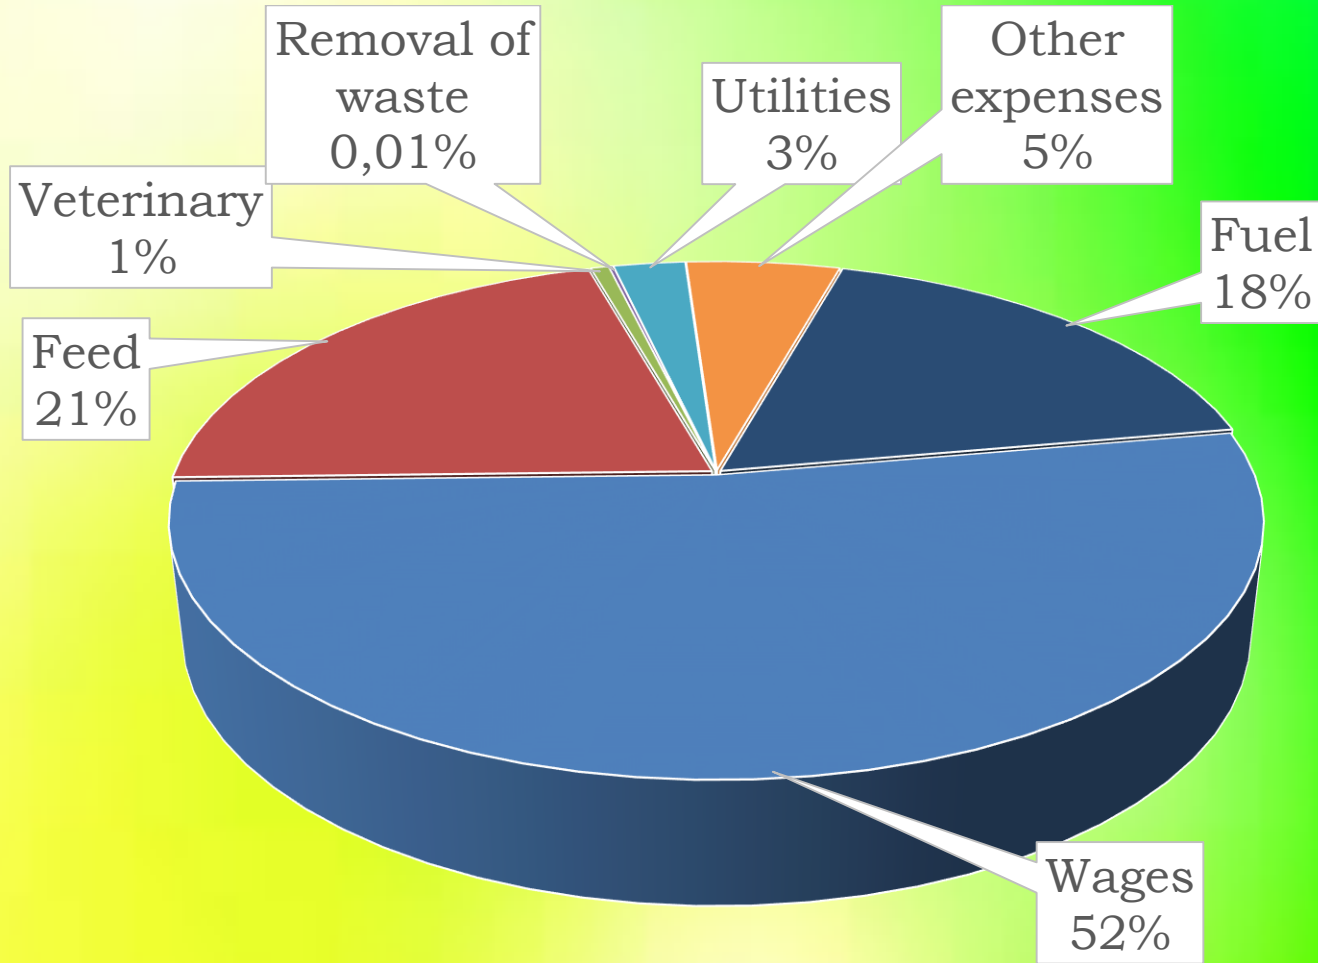

We are:

- Members of COOP «Molochna Rika»
- Participants of Dairy Management System (DMS)
- CoopAcademy students
- Participants of Women and Young Entrepreneurship Program for construction new farm (WYEP)
- Participants of Farm Financial Management and accounting (FFMA)

Total farm expenses

Structure of expenses for keeping cows

Dynamics of profitability in 10 months of 2015

Challenges:

- reducing the number of pastures and hayfields
- significant price fluctuations
- the high cost of loans

BUT...

I am a happy woman!

We are each responsible for our own happiness!
